Trillions of galaxies set the sky alight

Here in Your great universal hall

BRIDGE 1:
From mountains and valleys
Highways and alleys
Your goodness and grace are revealed
Each breath gives You glory
A rapturous story
A marvellous miracle is here

BRIDGE 2:
We dance in the union
The divine and the human
With goodness and mercy I'm blessed
My heart sings your praises
And joyfully raises
A loud and resounding 'yes'!
You make me smile
You make me smile

CHORUS 3:

You make me smile
When I look all around me
Colours high and wide
Behold my salvation
